CAREER HISTORY

LiCili UG | Göppingen
FULLSTACK DEVELOPER (Nov.2023 - Jan.2024)

- Developed dashboard components consisting of graphs for the company's core AI platform for text-analysis of customer feedback.

EOS UPTRADE GmbH | HAMBURG,GERMANY
FULLSTACK DEVELOPER (Apr.2023 - Sept.2023)

- Fixed critical bugs on the company's check-in / check-out (XIXO) mobility ticketing software, fully covered with unit and functional tests.

- I developed business features for the company's ticketing suite including a custom PDF receipt generator that contains a customer's ride details.

METZLER VATER DIGITAL GmbH | MUNICH, GERMANY
FULLSTACK DEVELOPER (Jan.2022 - Jan.2023)

- I worked on developing a web-based online event platform for one of the company's customers (Daimler Buses). The application enables registered guests to attend an event online through video streaming with live chat capability. The application also has an admin side where an event can be created and it supports 7 languages.

- I developed a dynamic footer feature for the BMW CSEU event management application and improved the overall loading performance of the application.

CYBERFLEET INTEGRATED LIMITED | LAGOS, NIGERIA
FULLSTACK DEVELOPER (Oct.2020 - Jan.2022)

- I helped deliver a Learning Management Platform facilitating instructor and student interaction through subject material sharing. It supported a grading system feature with CSV import and a forum/discussion thread. It is used in 10 schools with 2000+ HighSchool students and teachers in Nigeria.

EDECO TECHNOLOGY LIMITED (Pagesurfer) | LAGOS
FULLSTACK DEVELOPER (Jul.2019 - Jul.2020)

- I built a user management system for "Learnify" which is a startup idea of an Online Learning Platform.

- Involved in converting Figma designs into HTML/CSS and functional VueJS components

TECHIE PLANET LIMTED | LAGOS, NIGERIA
WEB DEVELOPER (Mar.2016 - Feb.2019)

- I worked on the development of a medium scale e-commerce grocery store for one of the company's customers building the entire application on the Laravel framework

- I developed a Family Planning Dashboard displaying information using charts about the national usage of pharmaceutical contraceptives in Nigeria. Built for an NGO based in Nigeria.
