CAREER HISTORY

Fullstack Developer(Remote) | JAN 2022 – Present

Metzler Vater Digital GmbH (Munich, Germany)

- I worked on developing a web-based online event platform for one of the company's customers (Daimler Buses). The application enables registered guests to attend an event online through video streaming with live chat capability. The application also has an admin side where an event can be created and it supports 7 languages.
- I developed a dynamic footer feature for the BMW CSEU event management application and improved the overall performance of the application.

Fullstack Developer | OCT 2020 – NOV 2021

Cyberfleet Integrated Limited (Lagos, Nigeria)

- I helped deliver a Learning Management Platform facilitating instructor and student interaction through subject material sharing. It supported a grading system feature with CSV import and a forum/discussion thread. It is used in 10 schools with 2000+ HighSchool students and teachers in Nigeria.

Fullstack developer | JUL 2019 – JUL 2020

Edeco Technology Limited | Pagesurfer(Lagos,Nigeria)

- I developed backend API endpoints with the Symfony framework.
- Involved in converting Figma designs into HTML/CSS and functional VueJS components
- Participated in code reviews

Web Developer | MAR 2017 – FEB 2019

Techie Planet Limited (Lagos, Nigeria)

- Involved in daily stand-ups and close collaboration with the development team for planning new product features.
- I built RestAPI endpoints using Yii2 (PHP framework) and did client-side programming using Javascript.

Fullstack Developer | JUL 2016 – FEB 2017

Freelance (Lagos, Nigeria)

- I assisted small organizations in having an online presence by building custom web applications to support their businesses and automate repetitive tasks.
- During this period, I honed my interpersonal skills and I developed the habit of discipline, honesty, and trustworthiness in order to fulfill contractual agreements between me and my clients
